

Modular Active Harmonic Filter SE-AHF 100

SE-AHF 100 ist der kompakteste, stückgeprüfte und anschlussfertige Active Harmonic Filter für 3 und 4 Leiter-Anwendungen mit einer Kompensationsleistung bis 100A.

Im Parallelbetrieb können beliebig viele Module aneinander gereiht werden.

SE-AHF 100 is the most compact, routine tested, ready for installation Active Harmonic Filter for 3 or 4 wire application up to 100A compensations current capacity per module. In parallel, you can add as many modules as you need.

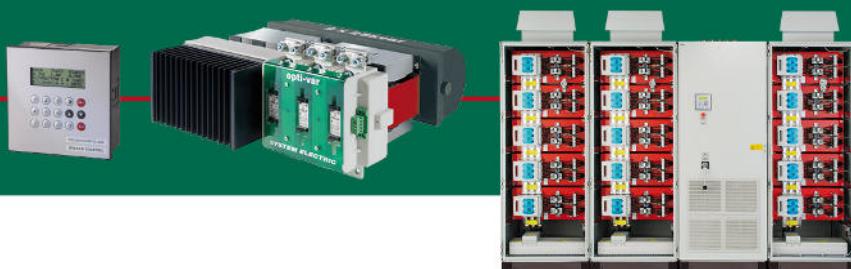

Keep it green!

Plug & Play in 3 Schritten

- Anschluss Spannungsversorgung nach Installation des SE-AHF's.
- Einschalten des SE-AHF's.
- SE-AHF startet automatisch – weder Parametrierung noch Programmierung notwendig.

Plug & Play in 3 steps

- Connect voltage after installation to SE-AHF.
- Switch ON the SE-AHF.
- SE-AHF starts automatically to operate – no settings or programming needed.

Funktionsweise

SE-AHF 100 – erzeugt entgegengesetzte Oberschwingungen zu den Netzharmonischen (von der 3-ten zur 50-zigsten).

OPERATION

SE-AHF 100 – generates opposite harmonics to the network harmonics (from 3rd to 50th).
